

"EYP Scholarship for Design Innovation"

The EYP Scholarship for Design Innovation will identify and support that inspire creativity and problem-solving through design.

Scholarship funding will be awarded to the startup or startups that focus on solutions to challenges that impact architecture, engineering, product design, and urban design. The successful applicants will demonstrate unique approaches to design, technology and the arts, as a means to improve the quality of human experience in the built environment.

What is EYP?

EYP Architecture & Engineering is the expertise-driven design firm nationally recognized for high-performance projects in the Corporate, Government, Higher Education, and Science & Technology sectors.

We are a team of over 600 professionals, including architects, engineers, interior designers, planners, and energy modelers dedicated to helping clients realize their vision and goals through memorable, intelligent building design. Our knowledge-based lifecycle approach to high-performance design leverages proprietary research. We value close collaboration with clients – from predesign through building occupancy – to inform innovation. You'll find our projects throughout the United States and in more than 100 countries.

What is the exact criteria for the Scholarship?

EYP focuses on impact in the following areas:

- High Performance Design that improves building occupant health and wellbeing
- Supporting local education in the arts, engineering, architecture and design
- Resilience planning and sustainability
- Initiatives that increase community engagement and social awareness through design
- Preserving natural resources

I'm still confused! Can you help?

Of course! Please e-mail apply@masschallenge.org and we'll be happy to answer any questions you may have.
